

# Clearogen™

## The Acne Treatment With Anti-DHT ingredients

Foaming cleanser 125ml ; Clarifying lotion 120ml ; Acne Lotion 55ml

### ABOUT THIS PRODUCT

Clearogen™ is the first and only acne treatment that addresses the root cause of acne, the hormonal by-product DHT. Over the counter acne treatments only address acne symptoms : bacteria and clogged pores. Clearogen™ combines FDA approved acne medications with effective DHT blockers and potent botanical extracts. In this manner, Clearogen™ treats existing acne as well as prevent breakout before they form.

### BENEFITS:

- Proven effective, natural ingredients prevent acne development during hormonal fluctuation such as puberty, menstrual cycles and stressful periods by inhibiting DHT
- Salicylic acid and sulphur correct the pore opening and prevent pore clogging
- Isolated active botanical extracts reduce inflammation and promote healing of the skin

Before

After

### DIRECTION FOR USE :

1. Wash face with Foaming Cleanser once every day. Lather the foam thoroughly over wet skin, rinse well and pat dry. Avoid eye area.
2. Apply Clarifying Lotion onto the entire face with a cotton swab and allow to dry once daily. Avoid eye area.
3. Apply the Acne Lotion evenly over the entire face once daily.

### KEY INGREDIENTS

### ACTION

Anti-DHT Botanical Blend

- Inhibit the conversion of testosterone to DHT and help block DHT from binding to receptors on the sebaceous gland. In doing so, it reduces excess oil secretion and promotes the healthy production of sebum that skin needs to moisturize and protect itself.

Salicylic acid

- Decrease pore size, redness and inflammation of acne

Sulphur

- Pore purifying and prevent pore clogging

GLA, ALA, Linoleic Acid & Oleic Acid

- Gamma Linolenic Acid (GLA), Alpha Linolenic Acid (ALA), Linoleic and Oleic Acid are essential fatty acids found in plant oils. These fatty acids have been individually proven to inhibit 5-Alpha Reductase. In fact, these are the most powerful inhibitors of 5-Alpha Reductase known today, and not only do they inhibit the Type II form of the 5-Alpha Reductase, but also the Type I form of the enzyme, which is present in high concentrations in the sebaceous glands and skin. Additionally, GLA, ALA and Oleic Acid have potent anti-inflammatory properties. While other acne solutions may work for short term breakouts, Clearogen has figured out the formula to treat acne, long term. Clear up your skin, and then stop future breakouts before they start, with Clearogen's simple total acne control system.

## KEY INGREDIENTS

## ACTION

### Saw Palmetto Extract

- Saw palmetto has been extensively studied over the past several years for the treatment of enlarged prostate in men ( BPH ). Saw Palmetto extract which is a known anti-androgen is the liposeric extract of the fruit of Saw Palmetto.
- Saw Palmetto has shown to effectively block DHT and is also believed to block the androgen receptors which are found on the sebaceous glands.

### INGREDIENT :

#### Clearogen™ Foaming Cleanser

SALICYLIC ACID 2%, DEIONIZED WATER, AMMONIUM LAURYL SULFATE, BUTYLENE GLYCOL, DI-PPG-2-MYRETH-10 ADIPATE, POLYSORBATE 20, TRIETHANOLAMINE, HYDROLYZED WHEAT PROTEIN, HYDROLYZED WHEAT STARCH, ALOE (ALOE ARBADENSIS) VERA GEL, ROSEMARY EXTRACT, PHENOXYETHANOL, LAVENDER E.O.

#### Clearogen™ Clarifying Toner

SALICYLIC ACID 1%, SD ALCOHOL 40 B, DEIONIZED WATER, WITCH HAZEL DISTILLATE, DODECYL GALLATE, PROPYL GALLATE, GLYCERIN PEG-12/SMDI COPOLYMER, POLYSORBATE 20, COMFREY EXTRACT, INDIAN PLANTIN EXTRACT, WHEAT HYDROLYSATE EXTRACT, SODIUM PCA, HYDROLYZED WHEAT PROTEIN, PHENOXYETHANOL, HYDROLYZED WHEAT STARCH, ROSEMARY EXTRACT, CHAMOMILE EXTRACT, DI-PPG-2-MYRETH-10 ADIPATE, ALLANTOIN, DIPOTASSIUM GLYCYRRHIZINATE.

#### Clearogen™ Acne Lotion (1.0oz / 30ml) :

\*SULFUR 3%. WATER (AQUA) - LINOLENIC ACID (GAMMA AND ALPHA), LINOLEIC ACID, GLYCERIN, GLYCINE SOJA (SOYBEAN) STEROLS, CAPRYLIC/CAPRIC TRIGLYCERIDES, DODECYL GALLATE, ETHYLHEXYL GALLATE, SERENOA SERRULATA (SAW PALMETTO) EXTRACT, GLYCERYL STEARATE, PEG 100 STEARATE, CETYL ALCOHOL, POLYACRYLAMIDE, C13-14 ISOPARAFFIN, LAURETH-7, CETEARYL ALCOHOL, DICETYL PHOSPHATE, CETETH-10 PHOSPHATE, ALOE BARBADENSIS GEL EXTRACT, PHENOXYETHANOL, CAPRYLYL GLYCOL, ETHYLHEXYLGLYCERIN, HEXYLENE GLYCOL, DIMETHICONE, STEARIC ACID, PROPYLENE GLYCOL, SYMPHYTUM OFFICINALE EXTRACT, PLANTAGO OVATA SEED EXTRACT, GLUTAMINE, PROLINE, LEUCINE, SERINE, TRIETHANOLAMINE, CAMELLIA SINENSIS LEAF EXTRACT, MELIA AZADIRACHTA LEAF EXTRACT, CHAMOMILLA RECUTITA (METRICARIA) FLOWER EXTRACT, LAVANDULA ANGUSTIFOLIA (LAVENDER) OIL, XANTHAN GUM, TOCOPHERYL ACETATE, EXTRACTS OF MALVA SYLVESTRIS (MALLOW), MENTHA PIPERITA (PEPPERMINT) LEAF, PRIMULA VERIS, ALCHEMILLA VULGARIS, VERONICA OFFICINALIS, MELISSA OFFICINALIS LEAF, ACHILLEA MILLEFOLIUM, SODIUM HYALURONATE, IMPERATA CYLINDRICA ROOT EXTRACT, DISODIUM EDTA, MAGNESIUM ALUMINUM SILICATE.

## The Science

Although it is true that outside factors (dirt, grime, makeup, etc.) contribute to clogged pores and bacteria which can cause acne problems, the key factor in the development of acne is actually the hormones.

Acne breakouts begin with the negative effects of the hormone DHT (dihydrotestosterone) on the oil glands. The enzyme 5 alpha reductase converts testosterone to DHT. It then binds itself to androgen receptors on the oil glands, stimulating excessive oil production. This excess oil obstructs the skin pores allowing bacteria growth, which in turn causes inflammation, infection, and visible acne breakouts.

In contrast to other acne face wash control products that only know how to treat pimples by killing bacteria and opening pores, Clearogen focuses on the best way to treat acne: attacking the root cause. Clearogen's Total Acne Solution is a comprehensive skin care treatment that includes a Foaming Cleanser, Clarifying Toner, and Acne Lotion, which work in conjunction to:

1. Reduce DHT production and prevent excess oil production
2. Block androgen receptors to minimize oil gland stimulation
3. Open pores and eliminate acne-causing bacteria
4. Reduce irritation and inflammation, allowing the skin to fully repair itself

As a formula devised by Board-Certified dermatologist Dr. Alex Khadavi, Clearogen is designed to treat the existing acne and prevent future breakouts. It combines the safest prescription-grade ingredients with natural botanical extracts, for a scientifically-proven treatment that clears your skin gently and effectively. So, stop scouring your skin with face washes and rubbing on lotions that don't solve the DHT and acne connection. They will only give you mild short-term results.

Clearogen will give you complete long-term results, by reducing DHT production, from the start, and giving acne-causing bacteria no reason to take root. You will experience healthier skin in the first month and see noticeable improvement in acne in just a few more weeks of using Clearogen's Total Acne Solution. Kill existing bacteria and prevent future breakouts — all with one easy-to-use system.
